GLOSSARY	v
INTRODUCTION	1
About this book	1
PACES carousel	2
The neurological station	2
The history taking skills station	3
General guidelines and helpful hints	3
MOTOR DISTURBANCES IN LIMBS	5
Localised weakness	7
Paraplegia and paraparesis	24
Quadriplegia and quadriparesis	32
Foot drop	40
Hemiplegia	53
Wasting/weakness of small muscles of the hand	65
Claw hand	74
Wrist drop	76
Proximal muscle weakness/wasting	80
Difficulty in walking and disorders of gait	86
Involuntary movements	90
MOTOR DISTURBANCES IN CRANIAL NERVE SUPPLY	95
Ptosis	97
Pupillary abnormalities	107
Squint and diplopia	109
Nystagmus	113
Conjugate gaze palsies	115
Facial palsy	119
Palatal palsy, nasal voice and nasal regurgitation	123
Dysarthria and dysphonia	126
Bulbar palsy	130
Weakness/wasting of the tongue	133

DISORDERS OF SPECIALISED FUNCTION	135
Disorders of speech	137
Disorders of vision	140
Disorders of hearing	150
Vertigo	153
SENSORY DISTURBANCES	157
Sites and disturbances	159
Sciatica and lumbar disc prolapse	167
GENERAL	171
Examination to exclude a significant intracranial lesion in a patient with common general symptoms	173
Headache	174
Loss of consciousness	176
Falls	178
Dementia	181
INDEX	183
